

EYPP 2015 / 2016

For the financial year 2015/16 EYPP was paid at £300 per pupil. Seventeen children were in receipt of EYPP totalling £5000.55. This money was spent on additional staff time to support these children through small group work. These children have shown to make rapid progress because of this extra help. Interventions focused on developing speech and language skills, social interactions and developing fine and gross motor skills as a basis for further learning and development.
