

EYPP 2016 / 2017

For the financial year 2016/17 EYPP is unchanged at £300 per pupil. Six pupils were in receipt of EYPP totalling £1800. This money was used to support children in additional small group work targeting fine motor skills, speech and language and social skills. A small contribution was also used to support the families to access the school trip to enable parents to enjoy the event with the children.

Assessment data at the end of the year showed that most children who were in receipt of EYPP attained well and were working within their age related expectations. Most had made accelerated progress compared to their non EYPP funded peers (4 children).

The child who did not meet their age related expectations also had other Special Educational Needs.
