

# The Bridge Game

## You will need

Paper

Tape

Balls, trains or toy cars

Simply tape the paper to floor to create a bridge.

Make sure they are at a distance which is achievable for your child.

You can extend the game by counting how many balls or vehicles they get through the bridge.

This activity provides opportunities to develop

- Turn taking,
- Hand eye coordination
- Builds on their decision making and problem solving skills.
- Counting skills.

Also its fun, get rolling!
