

# Bubble blowing

## What you will need

- A cup
- Washing up liquid.
- Water.
- Straws.
- Paint- a selection of colours

## What to do

1. Pour the water and a small drop of washing up liquid into the cup.
2. Add some paint and mix together
3. Put the straw in and blow.
4. As the bubble create a volcano catch them on some paper this will create a water picture.

Make sure your child can blow through the straw, test it out on your hand first.

**Tip** -This activity can be messy use a plastic table cloth, a tray underneath or do it outside.

## How to Extend

Add different colours, as many as you like, to get the water effect.

Once dry you could add your hand print to create fish and of course some glitter!

### Learning opportunities.

The blowing action helps to strengthen the muscles around the mouth.

This then aid with their speech development.
