

Porridge Goo

How to make:

1. Put the dry oats into a large tray/bowl and let the children explore them.
2. Add the warm water, a little at a time. Let the children mix it in with their fingers.
3. Add the colour of your choice, place in different areas; then mix it in.
4. Let the Fun begin!

You will need:

- Porridge Oats.
- Warm water.
- Food colouring /Powder paints.
- Large Tray or bowl.

**Try it outside or indoors!
They will love it!**

To extend the fun:

You can change the texture of the porridge by cooking it slowly and let it cool before playing with it.

Hide objects in it for the children to discover, or colour it green to make a swamp.

Create small world environments your dinosaurs or animals.

Great opportunity for the children to observe change, and develop their language skills through discussions.
