

Bear Hunt Sensory Bottles

You will need:

- 5 Small bottles or containers
- A small bear (plastic or fluffy)
- Small pieces of grass, water, mud, twigs, cotton wool

Taking it forward

- Use musical instruments to add sounds when they are going through the different areas.
- Get more family involved and dress up.

What's in it for the children?

The child will be able to show an understanding of an experience, and using resources, they can re-tell the story and describe how they made the bottles and carried out the activity.

What to do:

- Place each item in different bottles, e.g. put the cotton wool in one bottle and the twigs in another.
- Then fill with water, you may need a funnel.
- Label the bottles for each part of the story, e.g. the snow storm.
- Retell the story using the props with the book or on the internet.
