

# Binoculars

## You will need:

- 2 tubes
- Ribbon or string
- Paper
- Tape
- Different coloured pens
- Cotton wool
- Glue stick
- Bear hidden

## Taking it forward:

- Use the map and binoculars to go on a hunt for the bear, act out going through each area.
- Why not let the bear go on a hunt with you, to find his cave.

## What's in it for the children?

Trying out new activities and following instructions.

Using different ways to mark make and make believing.

## What to do:

- Using the tubes decorate and then tape them together.
- Let an adult put two holes in either side and thread the ribbon or string through and tie a knot.
- Cut the string in half so there is no risk of harm or if you feel safer leave the string off.
- On paper draw a map of where the family went on their travels, add on cotton wool for the snowstorm.
