

## Potato printing ladybird

### You will need:

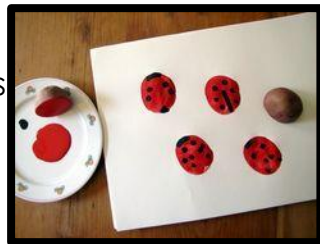

A potato-cut in half

Red paint

Black paint or a black pen

Paper

Googly eyes

### What to do:

Put the half of potato into the paint and print onto paper all over.

Using the black paint using your finger print spots over the red and make a face.

Add the googly eyes to the face.

Draw a line with the pen down the middle.

### Taking it forward:

You can extend this activity by cutting out different animal shapes on the potato and making patterns on the paper.

### What's in it for the children?

Showing how objects can be used in different ways, and how you can mark make using different materials.
